genius.
kelelecollective.org

Concept

Mission

🧠 Make it easy to find vetted Ugandan creators

A platform that provides independently verified profiles of Uganda's multimedia professionals. Kelele Collective acts as a trusted intermediary, opening up our network to recommend the right creators for the job at hand. Proudly Ugandan.

- Provide a trusted pathway to job recommendations
- Offer unbiased, quality-based recommendations
- Link the right producers with the right talent
- Increase Job opportunities for creatives

Key Questions

- Why are existing Platforms (linkedin, artstation etc. not sufficient??)
  > Trust problem, no vetting
  > Creators not active enough on Linkedin
- Where to limit? Multimedia only?

The Problem We Solve

Existing platforms like LinkedIn and ArtStation don't solve the trust problem. There's no vetting, creators aren't active enough on professional networks, and clients have no reliable way to assess quality or professionalism. Kelele bridges this gap.

The promise to clients:

Add Knowledge & Ressources

- Booking Tools
- Contract templates
- Help Users (Clients, Producers to write better briefings) > Create pdf-briefing from filling a form...
- Blog: Articles mirrored on Linkedin, Promote Podcast etc.

Who is Kelele Collective

Kelele Collective is on a mission to empower creatives to become successful professionals through community activities, trainings and mentorship.

We are home to the Multimedia Meetup, a physical event happening regularly in Kampala.

Kelele collective is a registered Non-Profit in Uganda and Switzerland, initiated by Tobias Fluck around 2022, an expat Motion Designer with a background in Design and Advertising based in Kampala.

Vetting Framework

"Kelele Verified" is our quality mark. It signals that a creator has been reviewed and meets our standards for professional work.

Vetting Criteria

Stage	Criteria	What It Means	Evidence Required

1	Authenticity, Legitimacy	works beeing made by the creator	Reverse search, 3rd party confirmation
2	Portfolio Quality	Work samples meet professional standard	Minimum 3 relevant pieces
2	Skill Accuracy	Creator can do what they claim	Portfolio matches stated skills
2	Recency	Active and current work	Work from last 2 years (preferred)
	Network Connection	Known to Kelele community	Bonus trust signal

Scenarios

Scenarios

Evaluation	Way forward
Falsehoods	Reject, request proof,
Originality in question (templates, copied etc.)	Reject, feedback
Quality of work substandard	Reject, feedback > “Not yet”
Quality of work substandard **in one area**	Reject, let adjust the
Work	

Profile/Application Statuses

Level	Description	

Pending	Needs evaluation	
Rejected soft	Minor flaws	Minor Updates required
Rejected hard	Major flaws. Substandard	Feedback, Re-evaluation pending for 3 months
Verified Emerging	“Yung Guns”	Promising Talent, give a chance on the plattform, labeled as “Emerging”
Verified		Yearly reminder to keep profile updated + Survey for feedbacks

Level	Description	Typical Signals
1	Young gun - Emerging	Some promising work, limited client experience
3	Expert	Exceptional work, known reputation, complex projects

Quality / Evaluation

We DON’T pit creatives agains each other on the platform (like in the form of a ranking). The philosophy is more about finding the RIGHT provider for our finders projects, rather then the absolute best in the whole country.

Optional datapoints beside can be considered:

Levels

Review Process

Phase 1: Tobi reviews all applications using the vetting checklist.

Phase 2+: Peer review system with additional expert reviewers to scale.

"Not Yet" Framework

Rather than rejecting applicants who don't meet standards, we use a "Not Yet" approach that fits Kelele's mission of empowering creatives. This turns rejection into mentorship.

When someone doesn't pass:

1. Acknowledge their application and thank them
2. Be specific about what's missing
3. Give actionable next steps to improve
4. Invite them to reapply in 3-6 months

"Not Yet" Feedback Template

Subject: Your Kelele Collective Application

Hi [Name],

Thanks for applying to be listed on Kelele Collective—we're glad you want to be part of this.

After reviewing your profile, we're not able to verify you just yet. Here's why:

What's missing: [Select/edit as needed]

- We'd need to see more work samples (minimum 3 pieces)
- Your samples don't clearly demonstrate [skill they claimed]
- We'd like to see more recent work (ideally from the last 2 years)
- The work isn't quite at the quality level we're verifying for yet

What would help: [Add 1-2 specific suggestions]

- Example: "Stronger examples of motion graphics with more complex animation"
- Example: "A short film or commercial project that shows your cinematography range"

This isn't a "no"—it's a "not yet." You're welcome to reapply in 3-6 months with updated work. In the meantime, keep creating.

[Optional: If you'd like feedback or mentorship, join us at our next Multimedia Meetup—details at kelelecollective.org.]

Best,[Tobi / Kelele Collective]

Profiles

Visuals: Images, Videos embedded

Personal: Full Name, Artist Name, Contact, Location, own Company (Founder, or co-Founder)

Links: to PDFs, Websites and Social Channels (External)

Skills (Disciplines): Main Skill – Several Side Skills possible (cap of 3?)

Experience: In Years per skill:
(this can act as a price-range indication)

Specialities: Content Creation, Film/TV, Music Industry, Advertising, Fashion, Art, Gaming, Comic, Editorial, Architecture, Documentary, Educational, Media for Kids (up to 5?)

Software: List of Applications (keep compact in Profile)

Services: "What I offer" (AS A TEXTFIELD) Freelaning, Gigwork, Production-Management, Ideation and consulting, Event-Films complete with Audio Production

~~**Certificates/Schools:** We don't beleive in certificates for creatives~~

About Timeyin

With a fondness for products and their innate potential for solving unique problems, I love to connect and empathize with the brands I work with, I believe that by becoming passionate about their mission, I can use my design to add value to any brand or product and do my part in creating true change in the world.

As a passionate digital artist, I'm always looking forward to new challenges and opportunities to create beautiful work.

As a Director Level

- Creative Direction
- Art Direction
- Animation Direction

As a Concept Artist

- Visual Development

As a Designer

- Logo Design
- Product Design

As a 3D Artist

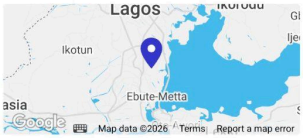
- Animation
- Modeling
- Hard Surface Modeling
- Effects & Procedural
- Shaders & Texturing
- Scripting & Tool Dev

Work & Contact Info

Portfolio | Contact

- Available for Freelance or Full-time
- Can work Remote
- Speaks English

Location & Time Zone



- Lagos, LA, Nigeria
- West Africa Time
- Thursday, February 5th
- 6:14 pm (-2 hours)

Experience

1-4 yrs. | 5-9 | 10+

Creator Profiles (Ideas)

Mininmal >> Profile Categories/Wireframe below

- Work samples / visuals
- Company Name option
- Profile Pictures
- Main Category/Skill, Side Skills

??

- How to automate Visual representation Link to portfolio free sites?
    - Artlink, Behance, Shared Google Folder, Youtube, Integration of Linkedin-Elemets? (Certificates)
    - Akatuuti

Nice / Ideas

- Make a VERIFIED-Label,
- Price-point Indicator (per skill?),
- Fun generated avatars when profile pic is missing
- Software Skills (> pretty hard to vet)
- Software categories with individual levels
- Level Indicator for each Skill seperately
- Certificates, Education
- Localisation
- Automated Email- / whatsapp-campaig to keep profiles updated

Onboarding Creators

- Problem: Time to capture manually
- Automate Profile capturing
- Taking People by the hand when filling their profile > Guide with Examples etc.
- How to keep up to date: Email with automated call to update to all in data-base

Nice / Ideas

- Let Artists capture their information through form

Searcher Accounts = User

Mininmal >> not for first stage

Nice / Ideas

- Create Favourites-Lists
- Anonymous Evaluations / Feedbacks
- Offer custom recommendations

Filter / Search / Categories

Main Skill Categories (Profile can have one Main skill (up to 3 side skills

- Photography
- Cinematography
- Editing
- Illustration
- 2D Animation
- 3D Animation
- Motion Design
- Graphic Design Print
- Graphic Design Online
- Programming
- Producing
- Writing
- Art direction
- Scenography

Skill Level
Software

- Level 0 - 3
- 0 = First timer
- 1 = Beginner

- 2 = Intermediete
- 3 = Pro

Experience? (needs to be vetted)

- Former clients, Size of budgets, Years of experience

Progress & Todo

Dev-Stages

Phase 1 – Proof of Concept

- Finalize Concept paper and vetting criteria
- Define Categories and profile-needs
- Rough Wireframe Layout
- Backend: Supabase (PostgreSQL database)
- Manual onboarding process
- 50 creatives onboarded
- MVP: Database, Profiles, Filter, Basic Onboarding

Phase 2 – Build out

- Fundraising: Find a grant
- Start search via custom form (step-by-step process)
- Automation of onboarding
- Peer review system
- Scale to 500 creatives

Phase 3 – Refine and Scale

- Enhanced interface
- User accounts with favorites and history
- Monetization implementation

Todo Tobi

- [x] ~~Write Basic Concept + Goals / Objectives~~
- [x] ~~Development Stages / Priorities~~
- [ ] Market Research
- [ ] Mockup Onboarding Form
- [ ] Naming & URL
- [ ] Define evaluation criteria
- [ ] T&Cs (+ Policy for Creators)
- [ ] Client/Searcher-Form to streamline requests

Todo Toliva

- [x] ~~Mini-Prototype~~
- [x] ~~User Story for Creators~~
- [x] ~~Decide on Architecture~~
- [x] ~~What to build, where to use third-party tools (like google forms)~~
- [ ] Intergrate work samples

Technical Architecture

Backend: Supabase (PostgreSQL) — provides database, admin UI, CSV export, and API for the frontend.

Database Schema

creators

Main profile information for each creative.

Column	Type	Notes
id	uuid	Primary key
name	text	Full name
email	text	Private — admin/clients only
phone	text	Private — admin/clients only
company_name	text	Optional, public

profile_photo_url	text	Public
bio	text	Short description, public
location	text	City/area, public
price_range	text	"budget", "mid", "premium"
portfolio_behance	text	Optional
portfolio_youtube	text	Optional
portfolio_instagram	text	Optional
portfolio_linkedin	text	Optional
portfolio_website	text	Optional
portfolio_other	text	Catch-all for other links
is_public	boolean	Show on directory after vetting
created_at	timestamp	When they applied
updated_at	timestamp	Last profile update

creator_skills

Links creators to their skills (one main, up to 3 side skills).

Column	Type	Notes
id	uuid	Primary key
creator_id	uuid	Foreign key → creators
skill	text	From skills_list
is_primary	boolean	Main skill = true
level	int	1 (Emerging), 2 (Competent), 3 (Expert)

vetting

Tracks review status for each creator.

Column	Type	Notes
id	uuid	Primary key
creator_id	uuid	Foreign key → creators
status	text	"pending", "verified", "not_yet"

reviewer	text	Who reviewed
reviewed_at	timestamp	When reviewed
notes	text	Internal feedback
reapply_after	date	For "not_yet" cases

portfolio_items

Individual work samples linked to a creator.

Column	Type	Notes
id	uuid	Primary key
creator_id	uuid	Foreign key → creators
title	text	Project name
url	text	Link to work
thumbnail_url	text	Preview image
skill	text	Which skill this demonstrates

skills_list

Reference table of available skill categories.

Column	Type	Notes
id	uuid	Primary key
name	text	e.g. "Photography", "Motion Design"
is_active	boolean	Can disable without deleting

Data Privacy

- **Private fields** (email, phone): Only visible to admins and logged-in clients
- **Public fields:** Visible on directory after creator is verified and is_public = true
- **Vetting notes:** Internal only, never shown to creators or clients

User Stories

Creator

I want to...	So that...
Submit my profile with work samples	I can be considered for the directory
List my main skill and side skills	Clients find me for the right jobs
Add links to my portfolio platforms	Clients can see more of my work
Indicate my price range	I attract clients with matching budgets
Get clear feedback if not approved	I know how to improve and reapply
Update my profile when I have new work	My listing stays current

Client – "Finder"

I want to...	So that...
Filter creators by skill category	I find people with the right expertise
Filter by skill level	I match project complexity to experience
Filter by price range	I find creators within my budget
View a creator's work samples	I can assess quality before reaching out
See portfolio links (Behance, YouTube, etc.)	I can explore their full body of work
Get contact info for verified creators	I can reach out directly

Admin

I want to...	So that...
See all pending applications	I can review new creators
Review portfolio samples	I can assess quality
Assign skill levels (1-3)	Clients can filter by experience

Mark creators as "verified" or "not yet"	Only vetted profiles go public
Add internal notes on each creator	I remember context for future reviews
Export creator data to spreadsheet	I can analyze or share offline
Set a reapply date for "not yet" creators	I can track when to follow up

---
